

PROTECT ULTIMATE

EXPERT-LED, PROACTIVE ENDPOINT
AND DATA PROTECTION WITH
WHITE-GLOVE 24/7 MDR

What is it?

Always-on protection delivering maximum resilience and complete incident response ownership for enterprise-grade organizations requiring dedicated security expertise.

Three reasons why you need it

1 NEW AI ERA

Stay secure as AI adoption grows with protection for AI interactions and agents. Build a safer AI ecosystem that is under greater control.

2 INCREASED COMPLEXITY

Manage evolving cyber risks with 24/7 threat monitoring, support from experts and empower your teams with better information, not overwhelm them with more technical noise.

3 OPERATIONAL CONTINUITY

Build security that bends under pressure without breaking, so that you can reduce disruption, recover faster, and keep your business running.

Key benefits

- ✓ ESET helps you prepare, monitor, contain, investigate, remediate and improve, with deeper expert support tailored to your environment.
- ✓ Faster threat detection and containment through the ultimate ESET Managed Detection and Response (MDR) service.
- ✓ With ESET deploying your security solution and performing security monitoring, incident response, and proactive threat hunting, you can save money on staffing, training and infrastructure costs, allowing you to focus on your core mission.

What's included

- MDR Ultimate
- EDR/XDR
- AI Security
- Endpoint Security
- Server Security
- Detection & Response
- Mobile Threat Defense
- Cloud Workload Protection
- LiveGuard® Advanced
- Full Disk Encryption
- Remote Access*
- LiveAI assistant
- Premium Support Ultimate
- Deployment & Upgrade with HealthCheck

*ESET Remote Access is planned for release in Q1 2027.

- ✓ Accelerated cybersecurity maturity thanks to ESET LiveAI assistant that helps streamline processes, upscales understanding of your environment and addresses problems without the need for extensive security knowledge.
- ✓ Addresses the risks connected to the use of new AI bots like ChatGPT and radically strengthens your security posture.
- ✓ Unique behavior- and reputation-based detection that is fully transparent to security teams. It provides real-time feedback collected from more than 100 million sensors worldwide in our ESET LiveGrid® system.
- ✓ Business endpoints, servers, public cloud virtual machines and mobile devices are protected by ESET's advanced multilayered LiveSense® technology.

Extend the protection with the **ESET PROTECT Ultimate Plus** package

Get multi-attack-vector coverage and the best value for money, thanks to additional benefits:

- ✓ Extra layer of protection for your Microsoft 365 and Google Workspace cloud email, collaboration and storage or mail servers, preventing new, never-before-seen types of threats, phishing or other targeted attacks.
- ✓ Automated vulnerability discovery and patch management to reduce your attack surface.
- ✓ Secure access to your company network thanks to easy-to-deploy single-tap multi-factor authentication.
- ✓ Engaging and effective cybersecurity awareness training to help your workforce stay sharp against today's evolving cyber threats.
- ✓ Cyber warranty with financial and operational assurance to cover initial remediation costs to return to normal operations as quickly as possible.

Extras included

- Cloud Office Security
- Mail Security
- Vulnerability & Patch Management
- Secure Authentication
- Cyber Warranty
- Cybersecurity Awareness Training

This is ESET

CYBERSECURITY BUILT FOR CONFIDENCE AND CONTROL

ESET provides purpose-built cybersecurity that empowers organizations and individuals to achieve digital independence in an increasingly AI-driven world.

Headquartered in the European Union and privately owned, ESET develops proprietary AI-powered cybersecurity technologies and sovereign AI models engineered to protect the digital ecosystem and AI infrastructure.

Every solution ESET builds is shaped by more than 35 years of cybersecurity expertise, bringing human experience, judgment and values to every decision. Combined with a proactive, prevention-first approach, ESET protects against conventional and AI cyberthreats. Grounded in scientific rigor and powered by 11 global R&D centers, ESET continuously advances research and innovation to deliver cybersecurity that is effortless and always under expert oversight. Its technologies are consistently validated by leading independent testing organizations.

ESET protects millions of users and organizations across 178 countries. Guided by a commitment to responsible AI and customer trust, ESET protects the progress that technology enables.
