ABOUT NOLAN TRANSPORT

Established over 40 year ago, Ireland-based Nolan Transport has grown to be one of Europe's leading transport companies. They operate a large fleet of over 1000 pieces of transportation in real time.

WHY ESET?

As the company was quickly growing, the need for establishing standards with regards to antivirus software was becoming obvious. In the market dominated by expensive and unwieldy solutions in terms of ease of use, Nolan Transport decided to do a 30-day trial with ESET Endpoint Antivirus, upon completing which they were happy with the overall performance and decided for the full version.

COMPANY'S IT MANAGER ABOUT ESET

John Nolan, IT Manager at Nolan Transport:

"It is one of the few pieces of software that we have deployed that does its job quietly and reliably, with the minimum of fuss, minimal amounts of attention and the lowest amount of administration. We have no qualms about recommending it to anyone. The daily update of the AV signatures also means that it's a "load and forget it" with regards to the PCs on the LAN. Since full deployment has taken place we have never experienced any problems and have seen the software only improve in functionality over the past 5 years."

ABOUT ESET ENDPOINT ANTIVIRUS

ESET Endpoint Antivirus protects computer users from all types of malware, including viruses, spyware, rootkits and phishing. Built for speed and low system demands, the solution is based on our record-holding scanning engine, the winner of the most Virus Bulletin "VB100" awards of all antivirus makers.

In the SMB and corporate environment, the solution can be easily managed by ESET Remote Administration that gives network administrators strong tools designed to provide central visibility and real-time insights in the network security.

KEY BENEFITS FOR NOLAN TRANSPORT

- Ease of use, including installation and management
- No overheads in terms of cost and administration
- Low resource consumption - crucial for uninterrupted co-ordination and monitoring of the transportation fleet
