

ESET and Mindflow

Enhance Cybersecurity
with Hyperautomation

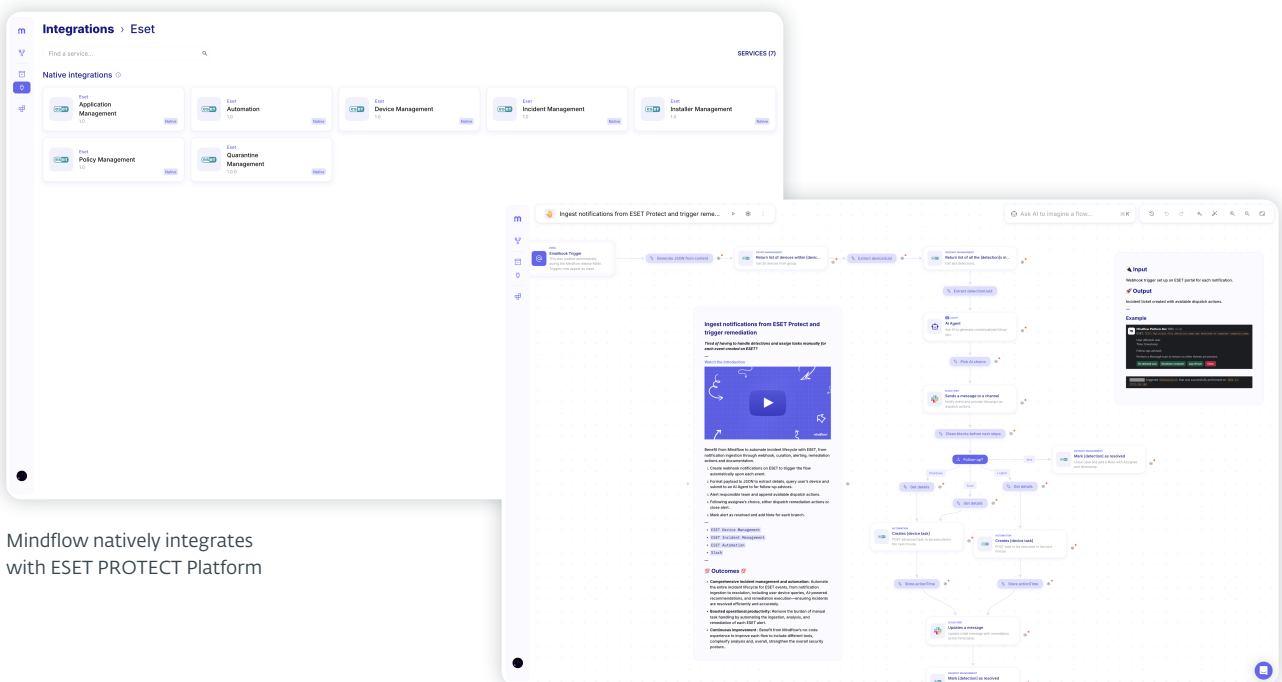

Streamline, protect, automate

Combine ESET PROTECT AI-Native XDR cybersecurity platform with Mindflow's AI-driven hyperautomation to unify operations, accelerate incident response, and fortify your security posture.

Hassle-free enterprise security: protect with ease

Modern security teams grapple with tool fatigue, high alert volumes and increasing sophistication in threat vectors. These challenges are amplified by skill shortages and the need to integrate and orchestrate diverse security tools seamlessly.

ESET and Mindflow address these pain points for enterprises by empowering security professionals to automate repetitive tasks and enhance their organization's security posture by leveraging powerful AI Agents through an extensive catalog of over 4,000 integrations.

Mindflow natively integrates
with ESET PROTECT Platform

Source: [Mindflow](#). Automated incident lifecycle management with ESET to perform alerting, remediation and documentation.

How it works

The integration combines ESET PROTECT Platform's proactive protection, which leverages rich and effective telemetry from its multilayered threat protection engine, with the power of Mindflow's automation to redefine enterprise security. Users can enhance threat detection, accelerate incident response and unify their security operations across 4,000+ integrated tools by automating ESET workflows through Mindflow.

From streamlining alert triaging to automating endpoint isolation, the integration empowers teams to focus on strategic tasks while improving operational efficiency and maintaining a secure, compliant and scalable infrastructure.

Key benefits

FASTER INCIDENT RESPONSE

Security teams can drastically improve key security metrics by automating alert triaging, enrichment and threat remediation to enhance security posture.

ENHANCED OPERATIONAL EFFICIENCY

Reduce errors and alert fatigue by automating repetitive tasks like endpoint isolation and policy updates, freeing teams to focus on strategic tasks.

UNIFIED SECURITY OPERATIONS

Centralize security by seamlessly integrating ESET with your enterprise stack, improving visibility and collaboration across different teams.

SCALABLE AND ACCESSIBLE AUTOMATION

Empower teams of all skill levels with Mindflow's no-code interface to automate ESET workflows, scaling SecOps without technical barriers.

STRONGER SECURITY POSTURE

Enable proactive protection by combining ESET's AI-Native prevention with Mindflow's hyperautomation, ensuring rapid detection, response, and remediation for evolving cyber threats.

Key features

AI-DRIVEN HYPERAUTOMATION

Mindflow's advanced AI capabilities like AI-Rooms and AI-Agents help teams automate ESET workflows intelligently.

INTUITIVE, NO-CODE

With Mindflow's drag-and-drop interface, users can design complex security workflows without coding expertise. Users can also orchestrate AI seamlessly with predictive workflows.

INTEGRATION WITH 4,000+ SERVICES

Mindflow's extensive library of native integrations connects ESET's security solutions with over 4,000 tools across IT, cloud and operations. This ensures end-to-end automation and unification of your organization's entire tech ecosystem, breaking down silos and maximizing ROI.

Mindflow and ESET: AI-Rooms

Mindflow's AI-Rooms transforms SecOps by combining AI-first automation with human expertise. AI-Rooms is a fully auditable centralized automation hub. AI-Rooms turns natural language prompts into actionable ESET workflows, enabling real-time threat mitigation and operational efficiency. Users can automate 150,000+ operations, call AI-Agents and execute predictive workflows – all via chat.

About ESET

PROACTIVE DEFENSE. MINIMIZE RISKS WITH PREVENTION.

Experience best-in-class protection thanks to ESET's in-house global cyber threat intelligence, compiled and examined for over 30 years, which drives our extensive R&D network led by industry-acclaimed researchers. ESET PROTECT, our cloud-first XDR cybersecurity platform, combines next-gen prevention, detection, and proactive threat-hunting capabilities. ESET protects your business so you can unlock the full potential of technology.

About Mindflow

Mindflow is a leading AI-driven automation platform that empowers organizations to streamline their IT and security operations. By automating repetitive tasks and integrating with various security tools, Mindflow helps organizations enhance their operational efficiency and improve their security posture.
