ESET PROTECT Entry

THE CUSTOMER

Arrow Academy is a forward-thinking educational institution committed to delivering high-quality learning experiences to students of all ages. The academy offers a wide range of academic and professional development courses, fostering both individual growth and academic excellence. To support its mission, Arrow Academy depends on robust IT systems for online course delivery, secure data management, and seamless communication between students and faculty.

THE CHALLENGE

Arrow Academy faced a number of challenges in securing its digital infrastructure, including inconsistent protection across devices, vulnerability to malware and ransomware, and difficulty managing endpoint security. The school's previous solution lacked centralized management and made it difficult to monitor and respond to threats efficiently. With increasing concerns around data privacy and regulatory compliance, it became clear that a more robust, scalable security solution was needed.

KEY BENEFITS

- Stronger protection from malware, ransomware, and evolving threats
- Centralized management across all endpoints and users
- Improved system performance with minimal resource use
- Regulatory support for better compliance with data protection laws

THE SOLUTION

Arrow Academy turned to ESET for its proven track record in educational environments, robust security capabilities, and ease-of-use. The centralized console gave administrators the visibility and control they needed to maintain a secure environment, while the lightweight agent ensures strong protection without slowing devices down.

“ESET offered comprehensive protection, minimal impact on performance, and an intuitive centralized management console.”

ESET's ability to support evolving data compliance requirements was another key factor in Arrow Academy's decision. As regulations continue to change, the academy remains confident that its data is both secure and compliant.

Beyond strong product performance, Arrow Academy values ESET's customer-focused approach, delivering responsive and reliable support exactly when it's needed.

“Our overall experience with ESET has been highly positive. The solution has provided robust, reliable security, simplified IT management, and enhanced system performance. ESET's comprehensive protection, ease of use, and excellent support have greatly improved our ability to safeguard sensitive data and maintain a secure digital environment for both staff and students.”
