

# Law Firm

*"Managing remote users and installed applications, and keeping our users from downloading the bad guys, had been difficult if not impossible with our previous solutions."*

Matt  
IT Director

## INDUSTRY

Legal

## COUNTRY

United States

## PRODUCT

ESET PROTECT Essential

## THE CUSTOMER

Founded in 1933, this law firm has grown into one of the leading full-service business and litigation law firms in the central U.S. With over 100 attorneys and offices throughout the central U.S. and Washington, D.C., the firm has a diversified practice and serves clients in a wide range of industries including banking and finance, energy, healthcare and manufacturing, as well as nonprofit organizations.

## THE CHALLENGE

Over the past 15 years, the firm's practice had grown from three to six sites and increased their user base from 125 to 225. Expansion meant managing more remote users and a variety of installed applications, which created issues the firm's existing solution couldn't deal with.

*"Although we don't strictly fall under any specific compliance obligations, our clients do and they expect a certain level of security from us."*

## KEY BENEFITS

- Light software footprint
- Robust functionality
- Easy installation

## THE SOLUTION

Previously, the company struggled to address all its IT security needs with a single package.

ESET provided a more comprehensive solution at an affordable cost, offering features that met their requirements and supported compliance efforts.

*"Once we realized we weren't dealing with an average, everyday scan-and-delete solution, we adapted quickly."*

ESET now delivers a lighter software footprint compared to their previous system, coupled with advanced functionality that exceeded expectations for an antivirus solution.

*"We've gained so much more in desktop management than just the typical tried-and-true file scanning."*
