ESET PROTECT Essential, ESET PROTECT Enterprise, ESET Endpoint Encryption

## THE PARTNER

Nothing But NET is a strategic services provider that offers a comprehensive suite of both remote and onsite IT services. Its business solutions include Managed Services, Network Assistance, Cyber Security, Private Cloud and Managed Hosting. Throughout the years, the company has been acknowledged as a leading MSP and a rapidly growing business, appearing on prestigious lists such as the CRN-MSP 500 and the Inc. 5000 List, among others, published by industry experts.

## THE CHALLENGE

Nothing But NET faced the challenge of providing comprehensive cybersecurity solutions to a diverse client base. Their customers, ranging from schools and non-profits to financial and industrial markets, required a wide range of IT services, including help desk support, backup solutions, and cybersecurity protections such as antivirus, spam filtering, and hardware firewalls. To meet these varied needs, the company sought a reliable endpoint protection solution that could deliver consistent, effective security across different verticals.

## KEY BENEFITS

- Comprehensive protection meets 100% of client needs
- ESET PROTECT management console simplifies operations and enhances efficiency
- Easy to use and manage
- Reliable protection

## THE SOLUTION

Having been a long-time fan of ESET's home products, Nothing But Net President, Bob Cox chose ESET as their endpoint protection provider.

*"ESET is an important part of our success and growth at Nothing But NET. Its solutions truly have an edge in the market and give our clients the confidence they are protected."*

The ease of managing these solutions, particularly with the ESET PROTECT management console, enhanced operational efficiency for their team by automating tasks like Windows updates and quickly identifying devices.

Ultimately, ESET's solutions provided Nothing But NET with the comprehensive, user-friendly security tools they needed, ensuring full protection for their clients and complete control over the customer experience.

*"ESET products meet 100 percent of our clients' needs."*
