THE PARTNER

Vandernet Technology Services is a managed service provider that became an ESET partner in 2016. The company offers security, network management, backup solutions and wireless networking to the Missouri region.

THE CHALLENGE

Vandernet Technology Services faced the challenge of finding a security provider that could deliver high performance, exceptional service, and flexibility to meet the needs of their diverse client base. As an MSP, they required a reliable antivirus solution that could protect their customers and their technicians, especially when working in high-risk environments. They aimed to find a solution that would save time and labor, especially when dealing with infected devices.

KEY BENEFITS

- Reliable, high-performing security solutions that meet the needs of both clients and technicians
- Flexible monthly MSP model aligns to their business needs
- ESET's top-notch support team is always available to assist with any issues, ensuring quick resolution

THE SOLUTION

Vandernet Technology Services selected ESET for its superior performance, service, and flexibility.

"ESET is the best security solution that I have ever had the pleasure of using."

Vandernet benefited from ESET's flexible monthly MSP model, which aligns to their business and enables simplified antivirus for their clients.

ESET's performance has led to significant time and labor savings, particularly when servicing infected devices. In addition to deploying ESET to their customer base, Vandernet also adopted ESET's endpoint security solutions for their own operations.

"We use ESET to protect our technicians when going into a volatile environment. We know we can connect with confidence."

With ESET, Vandernet Technology Services gained a trusted security solution that not only safeguarded their clients but also streamlined their operations, allowing them to focus on delivering exceptional service.

"It saves us time and labor because it JUST WORKS!"
